5. Looking at these anomalies, the Govt of India has suggested for the concerned States to do the physical verification and submit report. Till now only Kerala has been able to complete the process and reduce its Ecologically Sensitive Area from 13,108 Sq. Km. to 9993.5 Sq. Km. The other States are in the process to complete the task.

5. Hence we humbly request you to issue necessary instructions to the Ministry of Environment and Forests for:-

(i) request the Hon'ble National Green Tribunal to give ample time of six to eight months to complete the process of physical verification to identify the cultural landscapes which have been made part of Ecologically Sensitive Area.

(ii) to do a resurvey wherever there is a clash of interest between Natural Landscape and Cultural Landscape.

(iii) allow some minor mining activities of Sand & Soil for building works, construction of hospitals and other basic minimum civic amenities.

(v) exclude Hotels above 3 Star and Health oriented establishments from Red Category.

With Regards,

Yours Sincerely,

To,

Shri Narendra Modi Ji
Hon'ble Prime Minister of India
South Block,
New Delhi-110011
